- ☐ Parents - I got you. Don't worry about a perfectly behaved tiny human. I'm patient and have a lot of practice negotiating with little ones!

# LET'S TALK COLOR PALETTES.

---

My number one tip for dressing for your session is always choose something you're comfortable in! Photoshoots can be stressful for some - wearing something that feels natural to you helps. Stick to simple, timeless muted tones that make you feel good!

Try to not get too matchy matchy with others in your session. Instead, pick colors that complement each other and flatter your skin tones. Neutrals, solids and layering is best. Avoid busy patterns, bright colors, small prints, logos and large graphics.

I do not recommend picking one color and basing all parties outfits around that. Instead, palettes like the one to the right can be easily coordinated throughout most groups. Most importantly - communicate with others in your session and make sure everyone is on the same page.

Always feel free to reach out to me with questions or to share outfit inspo!
